

We are looking for an

EXPERIENCED CONSTRUCTION MANAGER (M/F)
in Berlin, Germany

You should have at least 5 years experience and have extensive knowledge of the relevant regulations (Procurement Law, HOAI, VOB, etc.). The safe use of the program MS Project and other MS Office programs is natural for you, as well as the secure contact with construction companies, architects, engineers and builders. If you like autonomous work in a team and you are interested in the implementation of specific building projects, motivated, flexible, performance oriented and resilient, then please send us your complete application documents.
